December 1, 2015

Dear Sir,

The intent of this letter is to serve as a recommendation for Ms Hana Han. I have known Hana since 2014, as she was a student in my culinary arts class. I found Hana to be an exceptional student, with many great qualities. When I met her, she immediately told me of her goals with enthusiasm, and as I have watched her progress through school, she has grown and remained as enthusiastic as she was on her first day of school. In the classroom she was organized and always well prepared. Hana made relevant contributions to the discussion, and showed genuine interest in the subject material. In the kitchen, she is efficient and quickly accomplished the day's assignments, with products that received top grades. Hana pays attention to detail, learns quickly, and her skill are developing rapidly. As a young culinarian, she shows maturity, drive, is very focused, and has great potential. I found her to be well liked by her peers and instructors, has a positive attitude, and an eagerness to learn. Her conduct is that of respect, cooperation and helpfulness to others.

Hana has the capacity, work ethic, and poise to hold higher level positions in the hospitality industry.

Thank you,

Chef Michael Riley CEC

Director of Education
